EDUCATION

International Institute of Information Technology (IIIT) Naya Raipur

Aug. 2023 – June 2027

B.Tech in Data Science and Artificial Intelligence

CGPA: 8.2/10

EXPERIENCE

Chhattisgarh State Industrial Development Corporation (CSIDC) | MLOps+Fullstack Intern

Feb. 2026 – Present

- Engineered a full-stack industrial land monitoring system utilizing Next.js 14, FastAPI, and MongoDB, digitizing land allotment, violation tracking, and compliance workflows.
- Developed a React Native mobile app featuring offline-first data sync queues, AR boundary overlays, and live GPS tracking mapped securely via Leaflet.js.

MetroMax Group | AI Engineer & DevOps Intern

Oct. 2025 – Dec. 2025

- Architected an automated B2B lead generation platform by deploying self-hosted n8n workflows on AWS EC2, integrating the Apollo API to stream prospect data directly into AWS RDS (PostgreSQL).
- Configured Amazon SES with strict SPF/DKIM/DMARC protocols for high-deliverability outreach, orchestrating Dockerized microservices to drive LLM-personalized email sequences and reply classification.

Ayatrio Furnishing | Fullstack Intern

March 2025 – May 2025

- Integrated automated webhook endpoints to reflect Instagram posts tagging the official handle, seamlessly showcasing recent customer purchases in the live products tab.
- Executed extensive frontend SEO and performance optimizations, achieving an overall reduction of more than 50% in Core Web Vitals metrics including LCP, INP, and CLS.

PROJECTS

ThinkSync | Next.js 14, Node.js, Express, AWS ECS, Terraform, WebSockets

Repository

- Architected a scalable SaaS monorepo with a Next.js frontend (Framer Motion, Shadcn) and an Express/Prisma backend, processing live meeting audio streams via distributed Chromium headless bots.
- Provisioned robust cloud infrastructure using Terraform, configuring AWS ECS Fargate clusters, Application Load Balancers, RDS Postgres, ElastiCache (Redis), and Kinesis Data Streams.
- Engineered real-time WebSocket fan-outs to stream live diarized transcripts and interactive coaching overlays with latency under 100ms.

Shayak | Next.js, Node.js, MongoDB, Socket.io, WebRTC, AWS

Repository

- Engineered a full-stack educational platform unifying video conferencing, classroom management, and proctored exams utilizing WebRTC and Socket.io for decentralized, low-latency communication.
- Implemented a resilient Node.js backend with WebSocket connections to handle real-time performance tracking, live analytics, and adaptive batch-based question delivery via MongoDB.

MindSync | React, Next.js, Flask, MongoDB, TensorFlow, OAuth 2.0

Repository

- Engineered a full-stack mental health analysis platform utilizing a Next.js frontend and a Flask REST API backend, seamlessly integrating five distinct data modules (Spotify, Social Media, Essay, Academic, Facial).
- Implemented OAuth 2.0 for secure user authentication, connecting to YouTube and Spotify APIs to fetch user data and music preferences.
- Orchestrated asynchronous data processing pipelines via Flask to analyze multimodal inputs using models like ResNet and CatBoost, visualizing emotional insights and storing results in MongoDB.

TECHNICAL SKILLS

- Languages:** JavaScript, TypeScript, Python, C/C++, SQL (PostgreSQL), HTML/CSS.
- Frontend:** React 18, Next.js 14 (App Router), Tailwind CSS, Framer Motion, Zustand.
- Backend:** Node.js, Express, FastAPI, Flask, Prisma ORM, RESTful APIs, WebSockets, WebRTC, Socket.io.
- DevOps & Cloud:** AWS (EC2, ECS Fargate, RDS, S3, SES, Kinesis, CloudFront), Kubernetes, Docker, Terraform, n8n Automation, Prometheus, Linux, Git, CI/CD Pipelines.

ACHIEVEMENTS

- Overall Hackathon winner of Xcelerate-Hacathon, Organized by CSIDC.
- Qualified for Meta PyTorch OpenEnv Hackathon x Scaler School of Technology on-campus Grand Finale in Bangalore.
- College Rank 3 and All India Rank 509 in ICPC India Preliminary.
- AIR 52 in Zuno's Fellowship Aptitude Test organized by Zuno by Fountit.
- Kishore Vaigyanik Protsahan Yojana (KVPY) and National Talent Search Exam (NTSE) Scholar.
- Winner of National Level Hackathon - Education for AI | Education in AI Powered by Thinkplus and SkillU.
- Winner of Software Track in NITS Hacks 8.0.
